I am excited to apply for the Backend Developer position at [Company's Name]. With a Higher National Diploma in Full Stack Software Engineering from ALX Nairobi and extensive experience in backend technologies, I am confident in my ability to contribute effectively to your team.

I have a strong command of Python, Flask, MySQL, RESTful APIs, and authentication protocols such as JWT and OAuth. I have successfully implemented backend solutions in my previous projects, including developing endpoints for user registration and job listings for the JobKonnnect web application.

I am particularly impressed by [Company's Name]'s commitment to [specific area or project relevant to the company] and am eager to bring my problem-solving skills and proactive approach to your team. I am dedicated to continuous learning and delivering high-quality results.

Thank you for considering my application. I look forward to discussing how my background and skills can benefit your team. Please contact me at 0638038333 or via email at ttorerwa01@gmail.com to schedule an interview.

Sincerely

Tatenda Torerwa
